

Eva Piskun

(561) 419-1719 | [Email](#) | [LinkedIn](#) | [GitHub](#) | New York, NY

EDUCATION

New York University

Bachelor of Arts in Computer Science

- Activities: Tech@NYU, Product Management Club (PMC), Women in Computing (WiC), Girls Who Code

New York, NY

Aug. 2025 – May 2029

EXPERIENCE

Software Development Intern

May 2026 – Present

EBMG Property Management

New York, NY

- Migrated **2 internal tools** codebases, rebuilding frontends in **React** + **shadcn/ui** with **GitHub** version control
- Migrated **70+ documents** and production data to **Supabase** via Python scripts; built async **NYC property scraper** (PLUTO/HPD/ACRIS) with incremental refresh
- Hardened auth to **ES256 JWT**, pinned **12** security-definer functions, implemented **48+** protected routes with RBAC and **30/30** Playwright coverage
- Shipped **Virtual Manager RAG** (Claude Sonnet + pgvector) and work order module with **6** Resend email triggers and **pg_cron** SLA jobs

Full Stack Product Engineer

Apr. 2026 – Present

The Modern Mat Method | [modernmatmethod.com](#)

Remote

- Sole engineer on a community platform and **Stripe**-gated video hub for a Pilates movement across **7 campuses**
- Integrated **Stripe** subscription billing with founding member cap logic and a **TDD** webhook + checkout test suite, supporting a waitlist of **40+** members
- Shipped **Mux**-powered on-demand video library with **HLS** streaming and a **Mistral**-powered workout builder
- Designed **4-tier** role auth (owner/admin/instructor/viewer) with **RLS**, security-definer functions, **CSP** headers, and **ADA** compliance
- Implemented **3D** interactive mat viewer using **Spline** synced to scroll position via a **RAF** animation loop
- Designed admin hub and instructor training portal enabling a non-technical team to fully self-manage campuses, events, and content — contributing to **2** new instructor recruits through increased brand visibility

South Florida Regional President & Founder, BBGs in STEM

May 2024 – May 2025

BBYO

Davie, FL

- Led a region of **1,000+ members**, training **17 chapter leaders** and driving measurable retention improvements
- Founded an international girls-in-STEM chapter, recruited **30+ members** and led weekly global discussions on AI

PROJECTS

enerME | *React, TypeScript, FastAPI, Prophet, Supabase, Tailwind CSS*

- 2nd place** at Ruth AI Hackathon (Hearst Lab, NYC) — selected from **150+ applicants**
- Ingested and queried **2M+ rows** of household power data from Supabase with resumable pagination
- Developed **FastAPI** backend with **Prophet** forecasting: 7-day hourly predictions with confidence bands
- Classified energy spikes by impact severity (low/medium/high) to dynamically drive tone of AI-generated insights

Juno | *React, TypeScript, MediaPipe, ElevenLabs, Tailwind CSS, Vercel*

- Overall winner** at Girls Into VC VibeHack: Health x AI Hackathon (NY Tech Week) — team of 5
- Engineered **MediaPipe Pose** pipeline tracking **33 landmarks** per frame for real-time joint angle detection
- Integrated **ElevenLabs** TTS + Scribe for hands-free spoken coaching cues and mid-workout voice Q&A

Be1 Space | *Next.js, FastAPI, Supabase, Railway, JWT*

- Selected into **Tech@NYU Tech Treks** — **19 accepted out of 300+ applicants** — built over a semester
- Developed **FastAPI** backend with modular router structure across spaces, occupancy, profiles, and auth endpoints
- Implemented **JWT** auth flow with NYU email domain gating and **Supabase** Row-Level Security policies
- Deployed frontend and backend to **Railway** using Nixpacks with environment-variable-driven API configuration

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), TypeScript, HTML/CSS, SQL

Frameworks & Libraries: React, Next.js, FastAPI, Flask, Tailwind CSS, shadcn/ui, Framer Motion, Radix UI

Developer Tools & Platforms: Git, GitHub, Vercel, Railway, Docker, Mux, OpenRouter, Cursor, Claude Code

Databases: PostgreSQL, Supabase, pgvector, SQL

Spoken Languages: English (Native), Russian (Fluent), Spanish (Novice)
